

FOR IMMEDIATE RELEASE

World Phone's revolutionary new offering- Global Intercom.

World Phone Infrastructure Services Pvt. Ltd. an ISO 9001:2008 certified company has now launched IP-PBX. World Phone Infrastructure Services Pvt. Ltd is a 100% subsidiary of World Phone Internet Services Pvt. Ltd., India's premier Internet and VoIP solutions provider.

World Phone's IP-PBX is an Internet Protocol based PBX which delivers communication over a data network. It is a single platform which connects you to every reachable part of the world via internet. It's flexible and can be customized as per the needs of the businesses-be it local, national or international. It works at the touch of a button, is easy to install, user friendly and connects you to the world in an instant!

With World Phone's IP-PBX you get- more profits, efficiency in communication, ease of operation, premium features like advanced voicemail, faxing, call screening, follow me and many more absolutely free!

What's more? Customers can get the IP-PBX for free with purchase of World Phone VoIP plans!
